SUMMARY

Driven and motivated Computer Systems Engineering student with a passion for software development, specializing in web and mobile applications. Enthusiastic about exploring emerging technologies and continuously enhancing technical skills. Adept at solving complex problems through coding, with a solid programming foundation, and eager to contribute to impactful projects while advancing as a developer

EDUCATION

Higher Institute of Applied Sciences and Technologies of Sousse   SEP 2023 - OCT 2026
National Applied Bachelor's Degree in Computer Systems Engineering

SKILLS

- **Programming Languages**: Java,Python,HTML5,CSS3,JavaScript,SQL,C
- **Front End**: React.js,Tailwind CSS,Responsive Design
- **Back End**: Node.js,Express.js
- **Databases**: MongoDB,MySQL,PostgreSQL
- **Tools**: Figma,VS Code,IntelliJ IDEA,Eclipse,Android Studio,Git,GitHub,Postman

EXPERIENCE

Full Stack Developer (Internship)   Aug 2025 - Sep 2025
Wind Consulting Tunisia   *Mahdia,Tunisia*

- Developed EMPLOYRA, a full-stack job portal web application using the PERN stack (PostgreSQL, Express.js, React.js, Node.js), delivering a comprehensive platform connecting job seekers with employers
- Implemented secure user authentication and data management using JWT tokens, bcrypt encryption, and Prisma ORM with PostgreSQL database, ensuring robust security and efficient data handling
- Designed and built responsive user interfaces with React.js and TailwindCSS, incorporating React Hot Toast for notifications, Framer Motion for smooth animations, and Moment.js for date formatting to enhance user experience
- Architected RESTful APIs and backend services using Node.js and Express.js, creating scalable server-side functionality that supports user registration, job posting, application tracking, and employer-candidate matching features

Front-End Developer (Internship)   Jul 2024 - Aug 2024
Nxtya   *Monastir,Tunisia*

- Developed responsive and interactive user interfaces using React.js and Tailwind CSS.
- Applied best practices in code structuring, version control (Git), and debugging.
- Improved understanding of modern web development workflows, including using tools like VS Code, GitHub, and npm.

PROJECTS

Full Stack Booking Web App
A fully-featured full-stack booking web application built with the MERN stack and Tailwind CSS. The platform provides secure user authentication, dynamic place listings, image upload functionality, and a seamless booking system. Users can effortlessly sign up, log in, create and manage listings, upload images, and make bookings—all through a modern, responsive, and intuitive interface.

Full Stack Job Portal Web App
Employra is a full-stack job portal web application developed using the PERN stack, Tailwind CSS, and Prisma ORM. The platform features role-based access, allowing users to register as job seekers or employers. Employers can manage job listings, create new posts, and edit their profiles, while job seekers can browse, apply for, and save jobs through their personalized dashboard. The project emphasizes a responsive, user-friendly interface and robust authentication and authorization mechanisms, providing a seamless and secure experience for all users.

CERTIFICATIONS

- **Google UX Design Professional Certificate** Proficient in user-centered design principles, including user research, wire framing, prototyping, and usability testing. Skilled in design tools such as Figma and Adobe XD, with hands-on experience in creating responsive web and mobile applications.(here)

- **Meta Android Developer Professional Certificate** This certification, developed by industry experts at Meta, encompasses a series of rigorous, self-paced courses covering essential topics such as Android application development, user interface design, version control systems, and cross-platform mobile development using React Native.(here)

VOLUNTEERING

Marketing Assistant   OCT 2024 - PRESENT
Tunisian Programming Lovers ISSATSo

- Designed promotional visuals and content to attract participants and sponsors.
- Coordinated with organizers to promote hackathons, workshops, and conferences.
- Contributed to growing the online presence and reputation of the TPL ISSATSo community.

Member   OCT 2024 - PRESENT
Google Developer Groups On Campus ISSATSo

- Collaborated with peers to promote Google technologies and developer tools.
- Participated in workshops, hackathons, and tech events to enhance technical knowledge and networking.
- Contributed to fostering a vibrant developer community on campus.
